

ConnSWUG Logo Modeling Contest

- Create a solid model using SolidWorks
 - Straightforward rule here...needs to be designed using SolidWorks.
- Must embody the spirit of ConnSWUG
 - This is important...this logo will be seen by the SWUG world and beyond. Think branding!
- It can be simple to exotic in shape and design
 - Obviously...use your imagination and be creative. Be careful though...sometimes less is more.
- Can be a Sheet Metal, Weldments, Surface part or assembly model
 - Whatever your comfortable using to articulate your concept.
- You can use Animation, Photo 360, or PhotoWorks (but not req'd)
 - See the two above...
- 1 entry (jpg or bmp) needs to be submitted by the August 31st, 2010.
 - We extended the date to incorporate total participation.
 - Email us at contact@connswug.com when your ready to submit your model. We'll need the actual model (to make pics to post for voting) and will give you a secure FTP site to upload your model to.
 - So what are you waiting for?!?!?
- Only members of ConnSWUG are allowed to submit a model
 - This is your contest...have fun with it!
- Voting will start after the due date above
 - From September 1st to September 8th ...vote for your favorite. It will be a tiered voting scheme. More info to follow...
- Winner will be announced at the September meeting
 - If you have attended the last few meetings...you know what the grand prize is...but let me remind you!

- 1st place = [SpacePilot Pro](#) courtesy of

- 1st place = Your winning logo will be printed in 3D form...courtesy of

- 2nd & 3rd place = [SpaceNavigator](#) courtesy of
